

**Join Us Now. Make A Difference For A Lifetime.**

## Gallows Run Watershed Association Membership Plan

The Gallows Run Watershed Association works to protect your water quality. We are an all-volunteer, non-profit organization. We run on donations of time, labor, and money.

We have more work to do than people to do it.

What we can do for you and your family depends on the resources we have to work with NOW.

Please consider becoming a GRWA member, volunteering, or gifting us a tax-deductible contribution.

Help support the publication of *Upper Bucks Futures*. Help us help you.

### This application is for a:

- New membership
- Renewal of existing membership

- \$5.00 Student

Publicity/Marketing _____	Wherever I'm Needed _____

### GRWA MISSION STATEMENT

The Gallows Run Watershed Association (GRWA) is an independent non-profit organization dedicated to protecting the quality of the natural resources of the Gallows Run Watershed.

We advocate on behalf of sound environmental stewardship, sustainable land management, and the preservation of the rural character of Durham and Nockamixon townships.

Our tools include educational outreach, active participation in the legal processes that affect local land use, and strategic partnerships with other organizations that share our objectives.
